The Miracle Lamps! - **TDP Infrared Heating Lamps** were invented by the Chongqing Silicate Research Institute (CSRI), headed by Mr. Gou Wenbin, in 1985. The TDP lamps create mineral infrared waves that treat numerous ailments including back pain, shoulder pain, joint pain, and arthritis. The curing plate - the key component for the TDP lamp - is coated with a proprietary mineral formation of 33 elements essential to the human body. When the curing plate is heated to a certain temperature, it emits unique Bio-spectrum electromagnetic waves. The absorbed energy promotes microcirculation and metabolism, and strengthens the immune system. TDP lamps have been used to treat millions of patients with various chronic ailments worldwide. In China, people refer to the TDP lamp as the "Miracle Lamp" due to its incredible success in treating chronic ailments. These lamps are FDA approved and comes with a 1 year warranty. Uses only 250 watts. ***Energy Saver*** *Made in China*

The bulbs last for approx. 5,000 hours and can be replaced very inexpensively. The lower wattage of halogen tubes will cut your energy bill in half while maintaining the same thermal heating, as compared to other heaters. The **FIR Bio Heater** can be used in an enclosed area because it does not consume oxygen. Choose from two temperature settings, and stationary or oscillating. ***Energy Saver*** *Made in China*

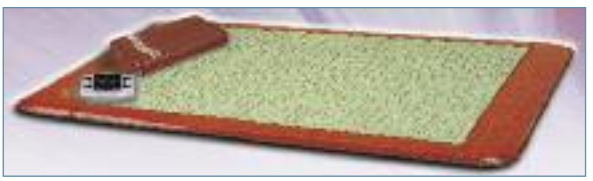
Warm the inside of your body with gentle Far Infrared heat. **Bio Mat Far Infrared Heating Mats** are considered to be the highest quality product of their kind. Bio Mats emit 100% of their warmth through far infrared (FIR), as well as emitting negative ions. Using high quality FIR emitting materials, this mat will give you years of healthy, therapeutic far infrared treatment.



Some benefits of FIR are:

- Improved immune system
- Reduced fatigue
- Helps to burn calories
- Less joint pain and stiffness
- Improved skin
- Better circulation

In addition, all Bio Mats block 100% of the harmful EMF (Electro Magnetic) waves. Unlike an electric blanket, these pads do not get hot when turned on. However, when you lie down on it, it warms the inside of your body and the part of the pad making contact with your skin gets warm. When any part of the pad gets higher than the selected temperature, the sheet current is cut off by thermal sensors distributed throughout the pad. It comes with an external control box to adjust the desired temperature of the pad. All Bio Mats carry a full 1 year warranty. Financing plans available. ***Energy Saver*** *Made in South Korea*

TheraSauna the cadillac of infrared saunas.

Traditional saunas, like those in health clubs, use a wet heat produced by pouring water over super-heated rocks in an insulated, tightly enclosed room where the air heats up to 200°F! This can be very uncomfortable and make it difficult to breathe. The body is warmed only on the skin and superficial muscles. High sauna humidity causes condensation to form on the skin, limiting the body's natural ability to perspire and expel toxins. **TheraSauna**™ uses infrared heat which warms the body directly without warming the air. **TheraSauna**™ operates at safe, comfortable temperatures of 110° to 150°F. The infrared heat produced by this sauna penetrates deeply, to be absorbed by your body as much as 1.5" below the skin for deep muscle therapy and relaxation. Your body produces up to 3 times more perspiration in an infrared sauna than in conventional saunas! This natural process of perspiring rids your body of harmful toxins and may ultimately burn up to 300 calories during a single 20 - 30 minute session. Hand-crafted in beautiful aspen wood, these units do not outgas turpenols like cedar and other pine woods. True full ceramic (NOT steel rod) infrared heaters deliver the most beneficial FIR wavelengths for the human body. Ideal for chemically sensitive people, the **TheraSauna**™ provides a multitude of medical, therapeutic, and relaxation benefits! **TheraSauna**™ infrared saunas require no plumbing, special wiring, or ventilation. Each sauna requires only about 45 minutes to 1 hour to assemble! Adjustable air vents allow for ample fresh air to enter the sauna. To operate, each unit plugs directly into a 120 volt home outlet. Each unit comes with timer and temperature setting controls. These saunas are backed by a 5-year warranty and made with 100% American components! Each sauna contains 7 to 12 - 163 watt solid ceramic concave emitters. Includes a CD and AM/FM radio. *Made in USA*

Improve your vision with a daily 10-minute eye workout. - The **Eyeport Vision Training System** works by alternating the eye muscles to flex then relax. Blue and red lights are turned on in different directions, patterns and speeds. When seeing red the eyes contract, and when blue is viewed they relax. The Eyeport causes the eyes to go through their full range of motion –horizontal, vertical, diagonal, near and far. Vision is the dominant sense for most people. It generally accounts for about 90% of all information received. Because many people do the majority of their focusing at close range their eyes do not get the proper exercise to ward off strain. By committing to a daily ten minute program of exercising the eyes your vision will be strengthened. *Made in China*

Energize your day with oxygenated water. - These O2 coolers feature a state-of-the-art miniature oxygen generator built in a high performance water dispenser, resulting in a super oxygenated water and eliminating the need for a large, heavy, and dangerous oxygen tank.

The **Oxygenia** system increases the dissolved oxygen level in the drinking water - normally about 7 ppm (parts per million), up to 35 ppm - an increase of 500%! As a comparison, oxygen-rich mountain streams can have up to 15 ppm of dissolved oxygen.

How it works: the PSA O2 generator utilizes the separation method developed by NASA. It concentrates the oxygen from ambient air to oxygenate the water, and the excess oxygen returns to the air. Therefore, the oxygen level in the room is not affected by the process.

Ease your pain away with infrared light.

Infrared therapy utilizes light energy in the invisible range of light, namely red, yellow, green, orange, infrared and blue. The energy given off is absorbed into the body and has been shown effective in treating pain and other ailments. PAIN-X 2000 products have FDA clearance for human infrared therapy use and these products have been shown to provide substantial relief for muscle and joint inflammation and pain. The purchase of a PAIN-X 2000 is normally covered by insurance. Correct insurance claim information and codes are available at the time of purchase.

The Magnetic Pulser is designed to generate a powerful, rapidly-pulsed magnetic field. This operates under a different principle than products using permanent magnets that have a steady, unchanging magnetic field (such as magnetic mattress pads and related products). This magnetic field creates tiny electrical micro-currents in living organic materials. Unlike a number of other frequency generators, the MP5 is not designed to affect the entire body at one time; instead, the round applicator coil is used to target specific local areas such as muscles, bones, lymph glands and internal organs. Pet owners especially appreciate the magnetic pulser's non-invasive applicator. There is never any sensation or electrical shock when using the magnetic pulser.

Magnetic Pulser MP5 **$299.95**

The MP5 operating instructions do not give any information regarding specific applications for this instrument as we make no medical claims. Made in China

All the advantages of intravenous EDTA Chelation at a fraction of the cost. - Detoxamin is a time-release suppository which uses EDTA (ethylenediamine tetraacetic acid) as a chelating agent. Because of its extraordinary stability, EDTA has become the most widely used chelator. The EDTA attracts, then binds heavy metals to it. The heavy metals can then be easily removed by urination, and normal bowel functions. For maximum benefit it is suggested treatment be continued for six months.

Pionair Photocatalysis Air Purifiers

This system is not an air filter - it is an air purifier duplicating nature's own methods of air cleaning and revitalization. **Pionair** purifiers reduce toxic mold, bacteria, pollen, and smoke/pet odors - with NO filters to clean and NO noisy fans.

In nature, air is purified by the UV light rays of the sun and ozone, which is produced by thunderstorms. This is why air smells so fresh after a thunderstorm. Ion generation occurs in nature from lightning and ultraviolet radiation.

The **Pionair** uses these natural methods by creating ultraviolet light rays, safe levels of ozone, and passive negative ions as part of your air treatment process.

Kill germs instantly! No Fans - No Filters - Completely Quiet! - The new **Airfree Platinum** technology is simpler than anything else seen in the air purifier industry. Airfree uses just heat to sterilize indoor air. Inside Airfree's patented ceramic core 99.99% of all microorganisms are burned at temperatures around 400ºF (250ºC). No living microorganism survives this power. Proven to destroy airborne allergens, mold, mildew, odors and dust mites. Also, the **Airfree Platinum** will not emit ozone (considered an asthma trigger by the EPA). No ions, no UV light and no ozone generation. In fact, Swedish independent tests show that Airfree actually reduces ozone by 26%.

Totally silent and maintenance free. The **Airfree Platinum** has an exclusive dimmer controlled blue anti-stress light. Ideal for a children's room, it can be used as a night light or turned off. Purifies spaces up to 550 square ft. Comes with a 2 year warranty.

The Bio-Net Air Purifier™ is the only HEPA system that kills germs! With its patented Enhanced Germicidal Filtration (EGF™) the **Bio-Net Air Purifier™** kills on contact 99+% of viruses. EGF™ also kills 94 - 100% of other airborne germs, molds, and spores. Filters that use HEPA and Ultraviolet (UV) are not as effective as the germ killing ability of the **Bio-Net Air Purifier™**. HEPA filters with a particle capturing ability of 0.1 - 0.3 cannot kill viruses, and may not even trap all of them. Additionally, UV may not be strong enough to kill many germs as they may become shielded behind dirt particles. The EGF™ technology is listed by the FDA as a Class II Medical Device.

The pHresh pitcher has a patented three stage filter and mineral cartridge which turns ordinary water into alkaline antioxidant water in minutes. - pHresh is a portable pitcher which uses brand new, revolutionary technology to create ionized water. Ionized water helps balance the body's pH, which tends to be acidic, because of our diets. Ionized water is a superior hydrator passing through the body's tissues easier and pushing out toxins and acid waste resulting in tissue detoxification. Along with these benefits ionized water improves the quality of food it touches. It hydrates, brings out flavors and lowers acid levels, even in coffee. *Made in South Korea*

pHresh Pitcher Portable Alkalizer	PHRESH	**$149.95**

The Melody uses the amazing biostone infrared filter system to create the maximum water purity, energization and filtration available. - Biostone naturally generates negative ions when it contacts water. The activated water can assist in strengthening the metabolism and circulation. The tourmaline in the system has a powerful affect on the water. It assists the alkalizer by generating far infrared which improves the energy level of the water. In essence 'supercharging' the water to be both more alkalized and ionized.
Benefits of Tourmaline on Water: • Reduces Cluster Size • Enhances Taste • Assists Alkalization • Minimizes Water Odor • Increase Dissolved Oxygen
There are nine levels to choose from when deciding the intensity of ionization desired. This unit can be installed either on a faucet or directly to the water source. *Made in South Korea*

Stretch your pain away. One way to alleviate back pain is to arch the body, as people and animals do when they stretch to relax. Lying backwards so that the front of the body is stretched will further relax the spine, freeing discs and vertebrae from the normal downward pull of gravity. As the body stretches backwards, abdominal muscles tighten and strengthen, taking more of the load off the lower back. Arching the back reduces stress and provides mild, passive exercise of the ligaments, tendons and muscles that surround the abdominal cavity. As a result, it permits a better supply of blood to flow to all parts of the body.

The **Body Bridge** also fights the aging effects of gravity such as baggy eyes, sagging skin, varicose veins, hemorrhoids, chronic back pain, compressed spinal discs and skeletal joints, and downward pressure on internal organs. *Made in USA.*

Composting has never been so easy. The Bokashi bucket inoculates food waste in an airtight bucket with a dried material known as EM•1® Bokashi. The **EM•1® Bokashi** will ferment the food waste, preventing it from rotting, and therefore eliminate odor or the attraction to flies. After the food waste is pickled, you can add it to an existing compost pile, feed it to worms, or bury it in an existing garden bed. Included are 2 buckets, and 2 - 2 pound packages of Bokashi organic rice bran inoculant. *Made in Japan*

Bio Bag Corn Composting Systems - A food waste container with biodegradable bags - makes composting in your kitchen easy and odor free. Can also be used for small bathroom trash bags and storing food in the refrigerator. If you want "fresh" food waste for your backyard compost and an odor-free kitchen, try using our BioBag 3 gallon waste bags with our ventilated Max Air food waste collection bucket. BioBags breathe naturally, allowing heat and moisture to escape, or evaporate. This process allows food waste to dry, thus reducing the rate of bacterial build-up which causes odor. When BioBags are used with the Max Air, you have the ultimate system for food waste collection.

Shield yourself from negative energies. The **BioElectric Shield**™ is composed of a matrix of precision-cut quartz and other crystals designed to balance and strengthen the body's own natural energy field. Deflects incompatible energies, such as EMF, as it strengthens the energy field in maintaining its normal, healthy frequency. Research has shown a measurable difference in organ strength and functioning. Each Shield comes with a black satin cord. Gold tabs amplify the frequency generated by the crystal matrix, resulting in 15% more strengthening and balancing than the brass tabs. *Made in USA*

NEW Protect your home from EMF (electrical magnetic fields) radiation with a smart looking bedside clock.

The **Comfort Clock** is a digital alarm clock which will mitigate the effects of negative energies such as EMF radiation. Cutting-edge principles in quantum physics have been added to the micro-circuitry "software" of the clock which enables it to emit an omni-directional field of soothing, stable, coherent subtle energies. There are three levels of intensity available.

Standard Comfort Clock (covers 100 - 1500 sq. ft.)	1100CC	**$199.95**

NEW Use harmonic sounds, created by quartz crystals, to neutralize the adverse electro-magnetic fields (EMF) within your home. - The **Peacemaker** has developed an innovative method of transforming EMF into a more balanced frequency, one similar to the Schuman Resonance. Two thinly sliced quartz crystals physically vibrate which programs a duo set of oscillator circuits. Four copper antennae receive the sound from the circuits then transmitts the harmonics into the room. The sound created, though inaudible, has the ability to silence the unhealthy EMFs within the living space. As any person comes within five feet of the **Peacemaker**, the harmonic tones begin to interact with the individual creating sub-harmonies within the person which stabilizes their energy force. The **Peacemaker** has a range of 50 feet diameter and carries a 1 year warranty. *Made in USA*
